COURSE DETAILS

Insulation Inspector ICorr Level 2

This course is approved by the Institute of Corrosion (ICorr, UK) and is designed to prepare individuals for the ICorr Insulation Inspector Level 2 examination.

Inspection and application of both thermal (hot and cold) insulation and acoustic insulation is covered and is applicable to pipe work, vessels and equipment used in the gas, oil and process industries etc.

This training program is a 2 days training program followed by 1 day examination to get certified as ICorr-2 Insulation Inspector.

Course Content

- Insulation systems
- Insulating materials
- Fixings Materials
- Protective coverings
- Insulation design (basic)
- Application of insulation
- Scaffolding
- Handling and storage of materials
- Health and safety considerations
- Common problems encountered
- Reporting
- Standards applicable
- Quality assurance
- Inspection and quality control
- Normative documents

PFP Inspector ICorr Level 2

This course is approved by the Institute of Corrosion (ICorr, UK) and is designed to prepare individuals for the ICorr Insulation Inspector Level 2 examination.

The course will cover the inspection & application of common types of Passive Fire Protection as found on hydrocarbon installations for both onshore and offshore facilities. This will include structural members, decks and bulkheads and storage or process tanks and associated pipe work. Mechanically fixed methods are not covered.

This training program is a 1 day training program followed by 1 day examination to get certified as ICorr-2 PFP Inspector.

Course Content

- Normative documents
- Design of passive fire protection
- Fire classifications/Fire types
- Risk analysis and Certifications
- Blast cleaning, Pinning and Priming
- Reinforcement systems
- Material types/Material application
- Material removal and repair, Scaffolding
- Handling and storage of materials
- Health and safety considerations
- Common problems encountered
- Standards applicable and Reporting
- Quality assurance
- Inspection and quality control

Note: There are no specific qualification/training required to participate these courses anyone (fresher's or experienced) who wish to start his/her career in oil and gas field or wish to gain knowledge in Insulation & PFP Inspection can participate to get certified as an Insulation and/or PFP inspector under ICorr Certification Scheme

COURSE DETAILS

Hot Dipped Galv. ICorr Level 2

This course is approved by the Institute of Corrosion (ICorr, UK) and is designed to prepare individuals for the ICorr Hot Dipped Galvanizing Inspector Level 2 examination.

Produced with the assistance of the Galvanizers Association, this course is designed to prepare individuals for the ICorr Hot Dip Galvanizing Inspector examination. This may be taken on the second half of the second day of the course, or on any other weekday thereafter provided the examination is taken within 90 days of the end of the course.

This training program is a 1.5 days training program followed by half day examination to get certified as ICorr-2 Hot Dipped Galvanizing Inspector.

Course Content

- HDG overview
- Corrosion mechanisms
- Surface preparation
- Galvanizing chemistry
- Inspection overview
- Organic coating on galvanizing
- Testing of galvanizing
- Coating Faults
- Handling and storage
- Coating repair methods

Transition from BGAS/NACE to ICorr Paint Inspector

With the increased demand from internationally qualified coating inspectors to obtain the well-respected ICorr inspection certificate, ICorr gives opportunity to a certification holder of TWI/BGAS, NACE/CIP, or SSPC/PCI to achieve ICorr paint certificate through transition or bridging by writing the ICorr Paint Inspector Transition Exam.

The certification of either ICorr Level 1 or 2 Paint inspector is awarded by the Institute of Corrosion upon successful completion of the examination.

Require More Details?

For more details about the transition and an exam schedule, please contact us on training@itcglobal.org

Note: There are no specific qualification/training required to participate these courses anyone (fresher's or experienced) who wish to start his/her career in oil and gas field or wish to gain knowledge in Insulation & PFP Inspection can participate to get certified as an Insulation and/or PFP inspector under ICorr Certification Scheme
